WELCOME FROM THE CHIEF EDITOR

It is a great pleasure for us to bring a new issue of the *International Journal of Sustainable Construction Engineering & Technology (IJSCT)* for December 2011. This journal is a collaborative effort between **Concrete Society of Malaysia** and **Universiti Tun Hussein Onn Malaysia**. IJSCT is a biannual journal started in 2010 and publishes issue in June & December every year. The journal focuses on the main disciplines underpinning the sustainable construction engineering area and the current issue comprises of 8 peer reviewed papers. The Editors wish to thank all contributing authors for the research/technical papers. Special thanks to all the scientific committees for their invaluable comments and suggestions in ensuring the quality and presentation of the papers in this current issue.

To ensure the continuity, we are looking forward to receive scholarly written article from our respected authors for upcoming issues in June 2012.
