WELCOME FROM THE CHIEF EDITOR

It is with a great pleasure for us to bring a new issue of the *International Journal of Sustainable Construction Engineering & Technology (IJS CET)* for 2011 in collaboration between **Concrete Society of Malaysia** and **Universiti Tun Hussein Onn Malaysia (UTHM)**. IJS CET is a biannual research journal started in 2010. Current issue comprises of 8 peer reviewed papers focusing on various disciplines underpinning the sustainable construction engineering. The Editors wish to thank all contributing authors for their technical papers. Special thanks to all the scientific committees for their invaluable comments and suggestions in ensuring the quality and presentation of the papers in this current issue.

To ensure the continuity of the next issue, we look forward to receive scholarly written article from our respected audiences.
