This special issue of International Journal of Integrated Engineering contains 27 papers contributions by post-graduate students in Universiti Tun Hussein Onn Malaysia (UTHM). All contents provide deep research results on various fields of engineering such as in Mechanical and Manufacturing Engineering, Electrical and Electronic Engineering and Civil and Environmental Engineering. These papers are selected from the post-graduate seminar in 2017 and they are experienced two-stage peer-review (reviewed by the Centre of Graduate Studies and Editorial boards).
