PRAKATA

Bersyukur ke hadrat ilahi dengan bantuan dan pertolongan-Nya sehingga buku ini dapat diterbitkan. Dahulu cerita tentang Pendidikan di Rumah mungkin suatu yang asing bagi masyarakat Malaysia, kini perkembangan teknologi dan situasi Pandemik COVID-19 membawa perspektif baharu dalam sitem pendidikan di Malaysia. Pendidikan anak-anak adalah aset penting dalam memajukan sesebuah keluarga dan negara.

Buku ini adalah mengeni Pendidikan di Rumah yang kian mendapat perhatian setiap ibu bapa di Malaysia sebagai satu bentuk Pendidikan Alternatif di Malaysia. Pandemik COVID-19 yang menyaksikan penutupan sesi persekolahan secara fizikal hampir dua tahun telah mendorong sebahagian ibu bapa memulakan sesi Pendidikan di Rumah sejajar dengan saranan Kementerian Pendidikan Malaysia.

Kandungan buku ini mengupas sejarah perkembangan Pendidikan di Rumah, Keperluan dan Tuntutan Pembangunan Pendidikan di Rumah mengikut kerangka Pendidikan Malaysia, Model Pendidikan di Rumah, Realiti dan Cabaran Pendidikan di Rumah, Impak Pendidikan di Rumah terhadap sistem pendidikan masa depan dan generasi digital. Kewujudan laman sesawang yang memaparkan kejayaan Pendidikan di Rumah di Malaysia merancakkan lagi populariti Pendidikan di Rumah sebagai pilihan pendidikan alternatif kepada ibu bapa yang mementingkan kualiti pendidikan dan keperluan pembelajaran anak-anak.

Maklumat dalam buku ini boleh dijadikan idea asas kepada ibu bapa, guru, ahli akademik dan pihak kementerian dalam memenuhi keperluan pembelajaran anak-anak. Sehingga hari ini, maklumat yang tersedia berkaitan Pendidikan di Rumah amat terhad khususnya di Malaysia dalam konteks pendidikan masyarakat timur. Buku ini diterbitkan hasil daripada penyelidikan Pendidikan di Rumah dengan tujuan menjadi pengantar mengenai pendidikan alternatif. Selain itu, buku ini juga menjadi bahan

sumber utama yang mengadaptasi teori dan model pendidikan di Rumah melalui praktikal yang dijadikan sandaran dalam sistem pendidikan terbuka pada masa depan.

Buku ini juga turut mengetengahkan model serta amalan praktik pendidikan di Rumah yang dihasilkan menerusi kajian pembangunan di Malaysia. Menariknya, buku ini turut menyarankan penggunaan model serta kurikulum Pendidikan di Rumah berasaskan konteks Malaysia. Justeru, buku ini sesuai untuk dijadikan rujukan utama kepada penyelidik di peringkat Sarjana dan doktor falsafah, khusus dalam bidang kurikulum sebagai pencetus ilham untuk membangunkan kurikulum Pendidikan di Rumah berasaskan sosiobudaya masyarakat di Malaysia.

Akhir kata, buku ini sesuai untuk diketengahkan kepada komuniti Pendidikan di Rumah dan ibu bapa yang prihatin terhadap kualiti pendidikan anak-anak yang bersesuaian dengan revolusi dunia pendidikan di peringkat global. Adalah menjadi harapan agar buku ini memberi manfaat kepada seluruh warga masyarakat khususnya pendidik, penyelidik, warga guru, ibu bapa serta mereka yang terlibat dalam pendidikan di Malaysia.
