<b>Chapter 5 – A Framework for Community-based Facilities Management Skills Requirements</b>	<b>57</b>
5.1 Overview	57
5.2 Method and Approach	57
5.2.1 Deductive approach – Literature surveys and results	58
• The Egan review report on skills for sustainable communities.	
• The conflict between the Government’s intentions and the local communities’ expectations.	
• Legislative frameworks for community engagement in the regeneration process.	
• The Lack of guidance for improving community engagement.	
5.2.2 Inductive approach – exploratory study results	62
• The stakeholders’ relationships in the community engagement delivery process are clearly addressed.	
• The stakeholders’ expectations from the community engagement in the regeneration delivery process are identified.	
• Levels of community engagement implemented by the stakeholders in the regeneration delivery process are justified.
